Your arrival by car

We recommend parking directly in the public underground car park below the hotel (subject to availability). Our hotel guests can park there at reduced rates, right in the center of Nuremberg. We will be very happy to help you with your luggage, just let us know in advance. E-charging stations are available in our parking garage, also subject to availability. As the reception in the underground car park is very poor, we recommend downloading the Ladeverbund+ app in advance.
